Brilliant silver proof.

I would here remark, upon the authority of Mr. J. Colvin Randall, that there were not over 75 of these dollars coined, and of this number, some undoubtedly must have been melted during the late war. As there are hundreds of collectors of Dollars in the United States, the rarity of these pieces must be apparent to every collector.

## END OF FIRST DAY'S SALE.

N. B. The illustration on back of title page, of the Morgan Standard Dollar, represents the die *as now* in use. The submitted pattern (lot 131 of this catalogue) differs from it, the laurel branch in eagle's claw having *only three small leaves*, while on the regular dollar the branch is larger and shows *nine leaves and a berry*, besides other slight changes.
